PROJECTS

E-commerce Web, Twitter Clone, Blog Web

These projects were built using a powerful combination of technologies: HTML, CSS, JS, EJS, Node.js, Express.js, and MongoDB. With these technologies, I created several web pages to enhance the user experience. The web pages I've designed include Signup, Login, Reset, New Password, Home, Products, and Edit Product and more. Starting with Signup, users can create their accounts and join these platform.
